The Hidden Web: Digging Deeper

When Google and traditional search engines don't return useful information, don't stop there. We will explore resources that are invisible to Google and hidden deep within web sites and proprietary databases. The "hidden web" lies buried within the collections for commercial web sites, libraries, archives, and museums.

We will also talk about the importance of indexes that deep-link into web sites online, thus uncovering hidden gems of information that may not be found easily through a search engine query.

There will be a Q & A opportunity at the end of the presentation.

About Cyndi Ingle

.Cyndi Ingle is the creator and innovator behind the award-winning and globally recognised CyndisList.com, a free categorised list of more than 337,000 links for genealogical research.
